You will be brought along the Teluk Paku trail. To spot the Proboscis monkey, species, which only can be found in Borneo Island, you will need to walk slowly, keep as quiet as possible, and listen out for sounds and movement along the way. In Bako National Park, you will also be able to view 7 different types of vegetations and forests from almost desert-like scrub or 'padang' to lowland dipterocarp forest. Take the trail to Teluk Pandan Kecil and you will find a lot of the carnivorous plants, pitcher plants, and you will also see the most famous rock formation at the end of the same trail. Lunch & Dinner is provided. Check in and overnight at the Bako national Park's Resthouse.
